

Quality Engineer

Winslow Automation, Inc. (aka Six Sigma), an industry leader in electronic component interconnect technology and related test & failure analysis services, is seeking a discerning, quality-oriented engineer to join our team in Milpitas, CA. If you are passionate about achieving quality workmanship, mentoring, training, and thrive in a small company environment where your individual contribution is highly visible, then we want to talk to you!

Our successful candidate must have a bachelor's degree in engineering. Our candidate should have at least two years of directly related experience in back-end semiconductor packaging or PCB assembly industries. ASQ certification will be a plus. Our candidate must have a US lawful permanent resident status or US citizenship.

Main Duties and Responsibilities:

As Quality Engineer, you will make continuous improvements to the Quality Management System (QMS) by managing, updating, and running the Preventative & Corrective Actions (PAR/CAR) system, Non-conformance to Requirements (NCR) system, and Return Material Authorization (RMA) system. You will assume responsibility as NCR & RMA Coordinator as well as QA Trainer. You will update, refine, and train others to QA specifications and work instructions, and QA related sections of specifications, work instructions, and manufacturing instructions for all services and products including Six Sigma services and Winslow Automation products. You will implement process, environmental, SPC, and ESD controls to ensure compliance to ISO9001, AS9100, EIA, JEDEC, and Military Standards (Mil-Std-883, Mil-PRF-38535) and customer requirements.

You will routinely interact with personnel in engineering, production, and customer service as well as customers on technical and quality related issues. Also, you will provide quality engineering solutions for yield enhancements, provide quality related support to customer service, and interface with customers on technical and quality related issues.

No relocation fees will be considered. Qualified candidates should send a cover letter and resume to: hr1@solderquik.com or fax documents to 408.956.0199, Attention: Human Resources.
